

## AFFORDABLE BIG BUSINESS EMAIL!

In today's world, email is perhaps the most important communications tool in business. Unfortunately, for many companies, the cost of implementing reliable e-mail and group collaboration services can be overwhelming.

Bizmail offers your business the benefits of big business technology at an affordable price.

Bizmail comes complete with comprehensive anti-spam and anti-virus functionality, regular off-site backups, secure connectivity, and the ability to access your data from multiple locations and devices, including your mobile phone.

Forget the hassles, headaches and expense of maintaining your own Microsoft Exchange server.

### EVERYWHERE ACCESS

Send an email from your desktop at work and find it in your "sent" folder on your laptop at home. Add a business contact using your Smartphone and find it later through your Webmail at your friend's house.
